KCVA Officers,

Earlier in the year, Local 910 was made aware of a violation of non-compensation for donning and doffing.

A mandated requirement of police officers to engage in donning and doffing before and after tour without payment is a violation of the master collective bargaining agreement. Local 910 engaged on your behalf and challenged the abuse. The agency refused to acknowledge the requirement for payment for this time.

Agency did stop the wrongful actions of mandating an extended workday without compensation. Early April 2022, Local 910 filed official grievances on behalf of our police department to make our officers whole.

Local 910 obtained an award of \$97,114.48 via settlement agreement.

Local 910 has been provided the monies to be distributed to the officers who worked during an agreed upon three-year settlement. Local 910 would like to award you a personal check during our open house November 14th, 2022, in the union office. M11-244

If you are unable to attend the open house on 11/14/22, your check will be mailed to your home mailing address on file. Please verify this address by either email or phone call to 910afge@910afge.org.

Local 910 thanks you for your patience and your support. Together, we are stronger, you have our back, and we have yours.

Congratulations,

Chris Smith
President, Local 910, AFGE
