

# LOCAL 910

MARCH

WOMEN'S HISTORY

In celebrating Women's History Month, Local 910 pays tribute to the indomitable spirit and countless contributions of women throughout history and within our own ranks. This month, we honor the resilience, innovation, and leadership of women who have broken barriers and forged paths in labor, politics, science, and arts, enriching our community and society at large. Their struggles and achievements remind us of the ongoing journey towards gender equality and the importance of solidarity in this endeavor. Let's draw inspiration from their stories, recognizing the pivotal role women play in nurturing and leading our union towards a more inclusive and equitable future. Together, we celebrate the legacy of past achievements and look forward to creating a more just world for all women.

## SPRING INTO ACTION

As the fresh breezes of spring begin to whirl around us, Local 910 is thrilled to commemorate Women's History Month and usher in a season of renewal, growth, and active engagement. This March, we not only honor the trailblazing women who have paved the way for equality and justice but also invite you to "Spring into Action" by joining our committees, including the pivotal Women and Fair Practices Committees.

As we celebrate Women's History Month and welcome the rejuvenating energy of spring, let's commit to active participation and engagement within Local 910. By joining our committees, you're not just volunteering your time; you're making a statement about the kind of workplace and community you want to be a part of. Together, we can achieve remarkable things. Committees: Pride, BLACK, WFP, YOUNG
